Under the guidance of:

Dr./Prof.

School of Computer Science and Engineering

RV University, Bangalore

School of Computer Science and Engineering

CERTIFICATE

Certified that the CS1211 Database Management Systems Mini Project work titled *XXXXX* is carried out by *(names) XXXX (USN)* who are bonafide students of the School of Computer Science and Engineering, RV University, Bengaluru, during the year 2025–26. It is certified that all corrections/ suggestions from all the continuous internal evaluations have been incorporated into the project and in this report.

Dr./ Prof. _____

Faculty Guide

Program Director

Abstract

Provide a concise summary of the project including:

- Problem statement
- Objectives
- Methodology
- Tools used
- Key outcomes

Table of Contents

1. Introduction
2. Problem Statement
3. Objectives
4. Literature Survey
5. System Analysis
6. Database Design
7. Implementation
8. Results and Discussion
9. Conclusion
10. Future Enhancements
11. References
12. Appendices

Chapter 1: Introduction

1.1 Background

Describe the domain and the need for the project.

1.2 Problem Statement

Clearly define the problem being addressed.

1.3 Scope

Explain the scope and limitations of the project.

1.4 Motivation

Justify why a database solution is required.

Chapter 2: Objectives

- Objective 1
- Objective 2
- Objective 3
- Objective 4

Chapter 3: Literature Survey

Discuss existing systems, related work, and limitations.

Existing System	Features	Limitations
-----------------	----------	-------------

Chapter 4: Database Design

5.1 ER Diagram

(Insert ER Diagram here)

5.2 Entity Description

Entity	Description
--------	-------------

5.3 Schema Design

```
CREATE TABLE table_name (  
column_name datatype constraints  
);
```

5.4 Keys and Constraints

- Primary Key:
- Foreign Key:
- Unique Constraints:

- Check Constraints:

5.5 Normalization

Explain normalization up to 3NF/BCNF.

Chapter 5: Implementation

6.1 Software and Tools Used

- DBMS:
- Programming Language:
- Frontend (if any):
- IDE/Platform:

6.2 SQL Commands

DDL Commands

-- Create database and tables

DML Commands

-- Insert, update, delete operations

Queries

-- Select, joins, nested queries

Views

-- View creation

Triggers

-- Trigger definition

Transactions

START TRANSACTION;
COMMIT;
ROLLBACK;

Chapter 6: Results and Discussion

7.1 Sample Outputs

(Insert screenshots of query execution and outputs)

7.2 Analysis

Discuss results, observations, and insights.

Chapter 7: Conclusion

Summarize the project achievements and learning outcomes.

Chapter 8: Future Enhancements

- Enhancement 1
- Enhancement 2
- Enhancement 3

References

1. Textbooks
2. Research Papers
3. Online Resources
4. Documentation

Appendices

Appendix A: SQL Scripts

Appendix B: Additional Screenshots

Appendix C: User Manual (Optional)

Evaluation Checklist

Component	Marks
Problem Relevance, Background & Context	6
Database Design & Modeling	8
Implementation: SQL Queries, Transactions & Execution	8
Insight, Analysis & Originality	4
Project Demonstration & Viva Voce	3
Project Report	1
Total	30
